

USER MANUAL – FLIGHT ATTENDANT APP

This is the screen which is presented to the user the first time he/she fires up the application. Every information needed to plan the flight is neatly presented in this one page form.

The screenshot shows a window titled "Fill request" with a light gray background. The window contains four input fields arranged vertically, separated by horizontal lines. The first field is labeled "Departure airport" and has a dropdown arrow. The second field is labeled "Arrival airport" and also has a dropdown arrow. The third field is labeled "Select departure date" and shows the date "26.06.2014" with a dropdown arrow. The fourth field contains two radio buttons: "FlightLookup.com" (which is selected) and "FlightStats.com". To the right of these radio buttons is a "Query" button.

Fill request

Departure airport

Arrival airport

Select departure date

☒ FlightLookup.com ☐ FlightStats.com

As soon as the user starts typing the name of the departure airport, suggestions are presented to make for an easier navigation and user experience.

The screenshot shows a web application window titled "Fill request". It contains two dropdown menus for "Departure airport" and "Arrival airport". The "Departure airport" dropdown is open, displaying a list of suggestions: "Milan, Italy - Malpensa", "Milan, Italy - Malpensa", "Pontianak, Indonesia", "Wanxian, China", "Campeche, Mexico", "Ankara, Turkey - Etimesqut", "Manja, Madagascar", "Palang Karaya, Indonesia", and "Sanford, FL". The "Arrival airport" dropdown is closed. Below the dropdowns is a "Select departure date" field with the value "26.06.2014". At the bottom, there are two radio buttons for "FlightLookup.com" (selected) and "FlightStats.com", followed by a "Query" button.

The same happens of course for the Arrival Airport field

The screenshot shows the same web application window. The "Departure airport" dropdown is now closed and shows "Milan, Italy - Malpensa". The "Arrival airport" dropdown is open, displaying a list of suggestions: "Rome, Italy - All airports", "Rome, Italy - All airports", "Bolzano, Italy", "Tomanggong, Malaysia", "Clovis, NM", "Oulu, Finland", "Soalala, Madagascar", "Gold Coast, QL, Australia", and "Cotabato, Philippines". The "Select departure date" field remains "26.06.2014". The radio buttons and "Query" button are still at the bottom.

A pop-up calendar is used to ensure that the user enter the date in the correct format, thus avoiding potential issues and bugs.

The screenshot shows a web application window titled "Fill request". It contains several input fields: "Departure airport" with a dropdown menu showing "Milan, Italy - Malpensa", "Arrival airport" with a dropdown menu showing "Rome, Italy - All airports", and "Select departure date" with a text input showing "26.06.2014" and a dropdown arrow. Below these fields are two radio buttons: "FlightLookup.com" (selected) and "FlightStats.com". A pop-up calendar is displayed over the date field, showing the month of June 2014. The calendar has a grid with days of the week (Sun, Mon, Tue, Wed, Thu, Fri, Sat) and dates (1-30). The date "26" is highlighted. At the bottom of the calendar, it says "Today is 26 June 2014".

Finally after the search result comes back, an appropriate window is shown to the user presenting the available solutions for the selected trip.

The screenshot shows a web application window titled "Fill request" with a sub-tab "FlightLookup.com". It displays search results for flights from Milan Malpensa (MXP) to Rome (FCO) on June 26, 2014. The results are presented in a structured format with four entries, each showing flight details and a summary line.

Summary	Flight #	Airline	Start	End	Duration	Distance
